**Attachments:** NPDES State Program Guidance for review of State program applications\_Volume 1.pdf; NPDES State Program Guidance for review of State program applications\_Volume 1\_833B86102A\_1986.pdf; EPA webpage\_NPDES State Program Information\_2018 06 25.pdf

**Categories:** Record Saved - Shared, Record Saved

Link to EPA's website for MOA: <https://www.epa.gov/compliance/memorandum-agreements-between-epa-and-states-authorized-implement-national-pollutant>

Scroll down to find link to final review documents including the checklist and model MOA.

The NPDES state program guidance documents are attached. Although these documents are from 1986, they are still the current guidance used by OW and OECA in review of state programs.

A copy of the EPA webpage for state authorization is also attached. This identifies the information to include in any request from Wisconsin to transfer a portion of the program from WDNR to DATCP.

Still to provide: LAR crosswalk and CAFO crosswalk. I am looking to see if these are available on EPA's website. If not, I recommend you have the attorney assigned to this matter review the crosswalks to assure that they are complete.

Let me know if I owe you anything else.

**Subject:** Recap of WI CAFO transfer discussion today.

Julianne- Can you please forward the electronic files for the documents you provided to us (checklists, MOA template, guidance docs, etc.) so that we can share them with WDNR? Please include any appropriate disclaimers you think are necessary. WDNR is on an accelerated timeline to get statutory changes to their legislature (by December) and is interested in providing us the completed legal authority checklist in the next couple of weeks (they have started their own version already but would work through ours as well) and then meet 4-6 weeks after that with the EPA team for initial feedback on their proposal to transfer NPDES authority for CAFO permits and enforcement to DATCP (not stormwater). They are also interested in us point to them specifically where we outline the section on funding and staffing plan that must be submitted to us as part of the submission so that they can be thinking about this part of the process for internal state discussions. Also, they were interested if we could point them to good examples of other state submissions and our approval.

Your help to get this to Mark and I would be great. Likely-although we are still discussing this- we will have Mark lead on this first part with close coordination with you as the timeline for this and the Ohio transfer are overlapping. But, we will certainly chat more on this!

Candice
